

ELABIF SARL is a business-to-business oriented service company that aims for rapid development focused on clients in the DRC Mining Industry.

Origins, Goals and Values

ELABIF SARL is a product of the entrepreneurship spirit of Mr. Franco Chobohwa and the team of experts in the mining sector, well established with strong partnerships and contacts in DRC, in the African Great Lakes region, and in North America and Europe.

ELABIF SARL provides services that reduce risks to investors in the DRC by providing distinguished quality services in a transparent and corruption-free practice manner.

ELABIF SARL corporate values

PROVEN Experience

build our success on proven experience; our customers being our best advertisement.

ADVANTAGES

providing the best quality of service while contributing to our customers costs control, and meet deadlines defines each of our actions

SOCIETY SERVICES

The vision is of a company that contributes to the development of the DRC and sets an example by posturing itself in an ethically and socially responsible manner.

In all cases ELABIF is committed to stay by your side to meet the challenges you are facing, either with its available game of services or through its network of partners that continues to expand in order to bring you new solutions.

Support in import and export of goods

Labour supply and human resources management

- Human resources tailored to your need
- A recruitment targeted for efficiency
- Administrative management for subcontracted personnel
- Handling teams for your projects

Because of ELABIF to surround itself with the best specialists, ELABIF SARL may:

- Prepare, Organize and lead the training together with your management;

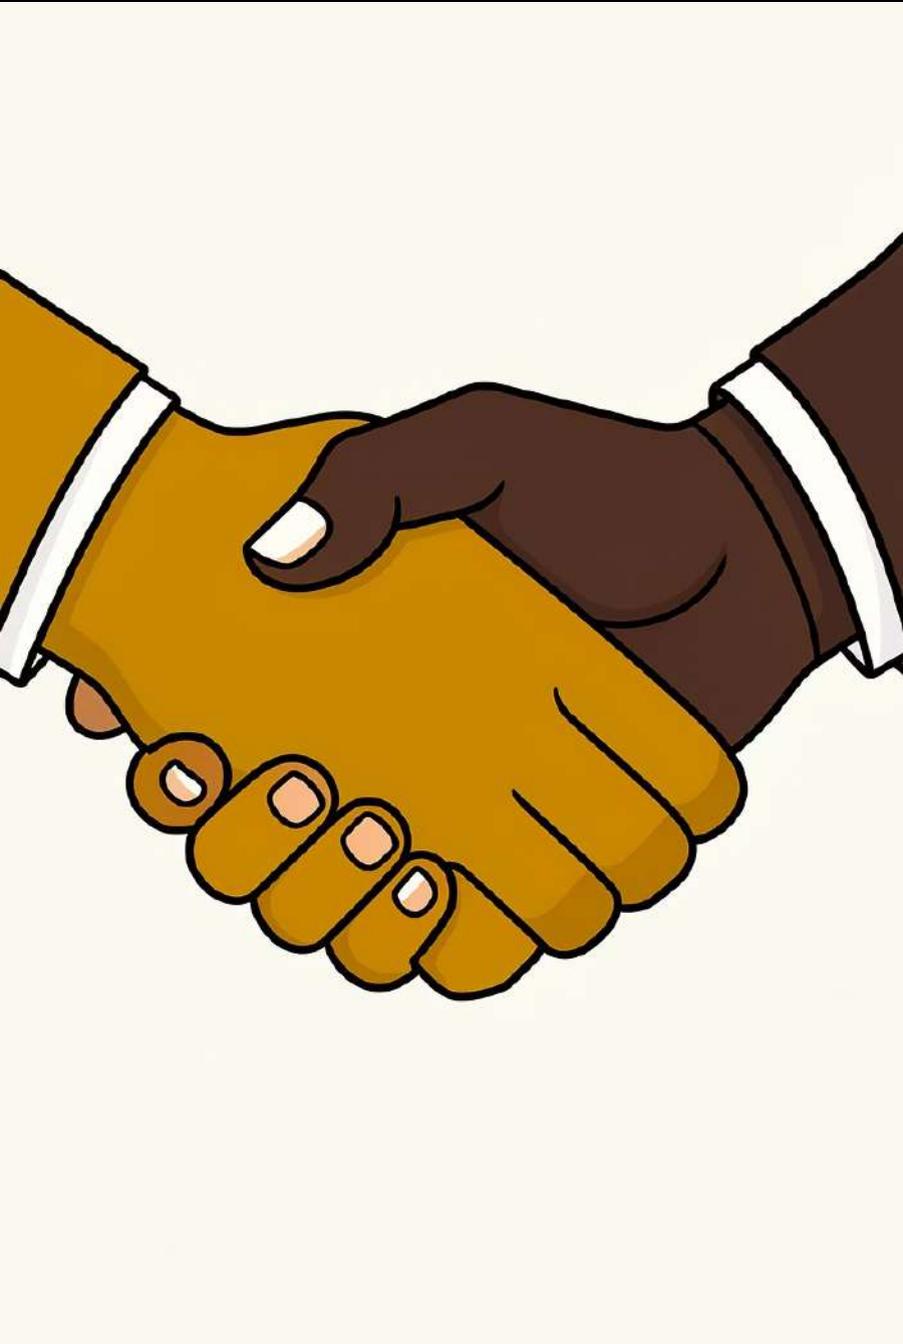

- Prepare and disseminate information to staff whether for technical purposes or related to safety;

Lead your team to carry out and complete set projects;

Manage conflicts that may arise within teams.

Facilitate relations with public and government services

With good established connections at the central level as well as the provincial level, ELABIF can deal with companies registration, migration visa related matters, specific license or work permit, taxes, conflicts with authorities or with populations, etc.

ELABIF also provided services related to mining licenses through cadastral services to enable legal compliance, access to mining licenses, asset protection, and negotiations for cases of force majeure.

Project management

Projects that ELABIF manages can be linked to the social and environmental responsibility of the companies.

Once the company's goals are well-defined, ELABIF will set up specific projects and implement and manage them accordingly. These projects can focus on social needs (education, health, humanitarian assistance), or in the field of environmental sustainability (protection of fauna and flora), or economic development (income-generating activities, local investment).

ELABIF addresses its offer especially to foreign investors, for whom DRC can be seen as risky or complicated country

ELABIF team comes from both commercial sector but also the humanitarian world, with experiences related to corporate social and environmental responsibility and government relations
