WEZA RESOURCES SARL

Weza Resources Background

Weza Resources is a Pan-African mining consultancy founded in 2015 to address the industry's growing demand for technical excellence, operational efficiency, profitability and sustainable mining practices.

With a foundation built on the decades-long experience of its founders, Weza has led projects across Ghana, Guinea, Mali, Mauritania, Morocco, DR Congo and Ivory Coast.

Our work spans greenfield development, brownfield optimization, and mine restarts for gold, copper, and critical minerals operations.

Weza Resources is a 100% wholly owned Ghanaian company registered in Ghana in January 2015 with registration number CS548582015

1. Our Services

Our Services cuts across both Open Cast and Underground Mining Methods.

Technical & Economic Evaluations

- Independent technical due diligence
- Scoping Studies, Preliminary Economic Assessments (PEAs), Prefeasibility Studies, Definitive Feasibility Studies
- Project viability reviews
- Preparation of ESIA and EIA

Exploration & Resource Modeling

- Geological and structural mapping
- Mineral Resource estimation and 3D modeling
- Geotechnical and Exploration analysis
- Geological Core logging
- Exploration Management

Mining Engineering & Project Optimization

- Budgets and Production Plans
- Short and Medium Term Mine Planning
- Long Term & Strategic Mine Planning and Mineral (Ore) Reserves Estimation
- Operational support for Project Expansions and Restarts
- Greenfield Project Development
- Productivity and cost optimization initiatives
- Mine-to-Mill Reconciliation
- Plant Feed Blend Scheduling & Stockpile Management
- Month End Production Reconciliation Reporting
- Drill and Blast Engineering and Optimization
- Tailings Facility Engineering
- Tailings Hydro Mining
- Tailings Infrastructure Management

Geotechnical Engineering

- Slope and Stopping Design and Optimization
- Rock Bolting QA/QC
- Numerical Modelling
- Rock Mass Modelling
- Hydrological & Hydrogeological Modelling
- Geotechnical Core logging

Capacity Building

- Environmental and legislative advisory
- Workforce development and training
- Community engagement and ESG strategy

- Site Secondment and On-The-Job Coaching/Mentoring

Support Services

- Office accommodation and logistics support
- Field mobilization solutions tailored to mining operations, exploration and developing projects requirements

2. Our Previous Experience

Client	Project	Country
Various	Residential and Office Accommodation services	Ghana
Emedi Resources Ltd	Technical Review of Mandiana and Kada projects	Guinea
Emedi Resources Ltd	Technical Review for Project Atlas	Morocco
Emedi Resources Ltd	Technical Review of Sadiola Project	Mali
Emedi Resources Ltd	Economic Evaluation of Tijirit Project	Mauritania
Minecon Resources Ltd	Mine Planning, Mineral Reserves Estimation and Economic Evaluation for Adumbi Gold Project PEA of Loncor Gold Incorporated	DR Congo
Minecon Resources Ltd	Mine Planning and Economic Evaluation for Confidential Project	Ghana
Minecon Resources Ltd	Economic Evaluation Various start-up Small Scale Mining projects	Ghana
Mining Construction Services Ltd	Economic Evaluation Anyankyerim Gold project, Obuasi. Mine Technical Services and Support. Preliminary Economic Assessment Report preparation and CP sign-off	Ghana
Atex Engineering & Services	Gap Analysis of data for Feasibility Studies for Confidential Project	Ivory Coast
Anglogold Ashanti Iduapriem Mine	Haulage analysis using Haulsim support – Excavator and Truck fleet simulations	Ghana
Heath Goldfields Limited	Mine Technical and Operations Support for the Restart of the Prestea-Bogoso Gold Mined. Asset Potential Economic modeling. Training and Coaching of Mining Engineer. Metallurgical Audit of the Process Plant. Drill and Blast Engineering support, Operations	Ghana

	Management Support, Implementation of LOM plans, ROM Pad Materials Handling Management
